Relectric's Annual Casino Night Powers Up Innvision

by Suni Rose

On May 16th Relectric hosted its annual Casino night fundraiser. This year, we selected San Jose based community program InnVision as the beneficiary for the event. Amongst the food, games, raffles and music the evening was also filled with a very important purpose; helping those who are less fortunate.

InnVision the way home was founded in 1973 and now serves over 16,000 people annually. The program provides food, shelter, clothes, and programs that promote self sufficiency for adults and families. Our Casino night raised more than just money, we brought awareness to this amazing program and its continued efforts to serve our local community.

Relectric would like to extend a huge thank you to all the employees, company representatives, friends, family, and community members who attended the evening or made a donation. The evening was a great success with our big chip winner Jeff Guyman taking home a brand new 8.1 Mega Pixel Digital Camera. In addition, attendees such as Merrit Calhoun, Nema Mesbahi, Ben Neveras, Justin McHenry, and Shanti Montevaldo also won great gifts from San Jose Giants, the A's, Nordstroms, Target, Safeway, Discovery Kingdom, and items supplied from Relectric including an Ipod Nano and a Sony Surround Sound Home Theater System. Our grand prize winner was Raffy Espiritu, who walked away with a 37" LCD HDTV. Congratulations to all the prize winners!

Relectric Supply Employees Go the Extra Mile

by Sarah Robinson

Every month, our team members vote on the employees who they feel have gone above and beyond their responsibilities here at Relectric Supply. Those team members are recognized with a gift from management, a front row parking spot, and eligibility for the Employee of the Year honor. In this issue of our newsletter, we'd like to highlight our winners from April and May.

Jeff Guyman, April 2008

Jeff Guyman is our Inside Sales Manager and has been with Relectric for four years. His responsibilities include assisting and motivating the sales team. He answers any technical or procedural questions the sales staff may have. He also helps them come up with solutions when orders have issues. Basically Jeff has a "can-do" attitude that helps motivate his team to exceed their goals. While Jeff's main task is management he also backs up the sales team taking calls when they are busy and helps manages the purchasing department if someone is on vacation.

Jeff is an integral part of Relectric; in his free time he plays on the company softball team and volunteers on the newsletter committee. Jeff's fellow employees appreciate how well he works with everyone on the staff. One team member says, "Jeff communicates well between the departments and really helps out while our other employees are gone. He's a hard worker, and he is committed and loyal to Relectric."

Corina Gabriel, May 2008

Corina Gabriel handles accounts receivable and credit applications for Relectric. She is in charge of setting up new customer accounts, billing and collecting from customers. Corina assists customers with any questions they may have. She also provides great assistance to the sales staff, meeting their demands with a positive attitude.

Corina's fellow employees notice the hard work she puts in saying, "Corina Gabriel is a hard worker and always gets back to me, when I have questions, in a timely manner." Another employee said, "She goes beyond her job description and handles things that makes our office a better place." Corina is known for bringing good food to our company potlucks, decorating our Christmas tree, planning events and adding moral to the workplace.

Thanks Corina!!

EVENTS

at Relectric

FUN TIMES

at Relectric

By Mike Lisle

Q: What's another name for an amateur electrician?

A: A Shock Absorber.....HA!

Q: Why do Electricians make the best nudist's?

A: Because they have the most experience "removing shorts".

Q: Why did Darth Vader hire an electrician?

A: Because he was tired of living on the "Dark Side".....(The force is strong with this Joke.)

Q: Why did the light bulb quit his high paying job?

A: Because he was burnt out

The management of Relectric does not endorse or otherwise approve of these jokes, mostly because they are not funny. If you would like to submit your own electrical humor, send your jokes over to us for review at jokes@relectric.com.
